Harry C. Curran, Corresponding Secretary Board of Triade, Maysville—Dear Sir: Your official letter of 26th inst. to President of Masen County Medical Society received and the contained matter duly considered at the Society's last regular meeting.

I am instructed to assure the Board of Trade and through it our citizens at large that no second appeal to the Society will ever be required to command its prompt and carsest efforts to prevent or suppress epidemics, so far as such action may be rightly taken. In this case, however, of an apprehended epidemic of smalipox, we can give very positive assurance that the fear is groundless, our advices coming from every section that there is not now a known case of the disease within the borders of the county. Properly, any action in the premises should emanate from the county's Board of Health, and the Society's action could only be cooperative. However, the President of the Society, Dr. James Shackieford, is likewise Medical Director of Board of Health; he is diligent in the discharge of his duties and does not hesitate to add his personal assurance to the foregoing statement.

We beg to repeat and impress: if fear of

Very respectfully.
